

PRODUCT INFORMATION SHEET

10 x 10 Canopy Top

Fire-resistance and fire-rating information

PRODUCT DESCRIPTION

The canopy top is constructed from durable 600D polyurethane-coated polyester and is designed for use with a 10 x 10 event tent.

FIRE-RESISTANCE STATEMENT

Fire-resistant canopy meeting CPAI-84 & NFPA-701 standards. The fire-resistant fabric is intended for professional event, exhibition, trade show, and promotional display applications.

Important product note

Fire-resistant does not mean fireproof. Always follow venue requirements, proper setup procedures, and applicable local fire-safety regulations.
